

# March

## “Nutrition Tip of the Month”

**“Variety is the Spice of Life.”**

**For best results, do NOT ever feed the same brand or flavor of commercial pet food continuously. Rotate!!**

---

Rotate through different companies and flavors to prevent food allergies from forming. It is impossible to formulate the perfect meal in a single bag. Each brand and flavor has it's pros and cons. By rotating through companies, you can be sure your pet will get ALL their nutritional needs met.
